Subject: RE: Draft responses to comments on fourth FYR report

All:

I did not make this clear, but if there is no reply/response to the comment, I simply incorporated the suggested change (e.g., revised wording, provided additional clarification, etc.).

Subject: Draft responses to comments on fourth FYR report

All:

Please find attached the draft responses to the comments received on the draft FYR report. This file is a consolidation of comments from EPA/EPA-HQ and CDPHE and input from DOE. I have replied to the majority of comments with an initial response – please review and note any responses that are unacceptable and/or that you would like to discuss in our upcoming meeting. There are twenty-five or so comments that are marked with 'discuss with the reviewers' that I hope we can also discuss at the meeting.

If you have trouble with the file, please call me and I will post it on the EFT site. Thanks.

Patty
